## CAHP Release: New hire enhancements

Dear Colleagues,

The CAHP Project Team is pleased to announce that two changes to issues that generated a lot of questions from Casual Academics, were successfully delivered in the Casual Academic Hire and Pay (CAHP) system.

### What functionality has been released?

This release adds a notification for Casual Academics who try to log in to CAHP with their UQ Student credentials, informing them that they need to use their staff credentials instead. In addition, the CAHP system was asking for personal details from returning casuals who had no active placement but were not terminated. This is not necessary and this release removes the request.

#### Enhancements and bug fixes:

- Notification for Casuals who log in with UQ Student credentials
- Removed unnecessary request for personal details from returning casuals
- Fixed a pay scale bug that resulted in an issue with sending pay information to Aurion.

### When will the functionality be available?

The functionality is now live.

### Next Steps

The CAHP Project Team is providing support for Schools preparing for Semester 1. The following major features will be our next focus:

- Expense Report
- Teaching Allocation functionality

### Other information

Thank you for your ongoing support to the development of CAHP. If you have any questions about this release please contact us.

- Email: [CAHP\\_Support@uq.edu.au](mailto:CAHP_Support@uq.edu.au)
